ten fingers consistent  
a "must have" situation  
how can you believe  
that patience brings reward?  
Up the nails with trappings  
little games and smaller worlds  
What gentle fingers can feel  
mankind can manipulate  
all thumbs and needles  
quilting the eye-patch vision  
but how can you believe  
that patience brings reward?  
Up the nails with trappings  
little games and smaller worlds  
All fingers pointing  
and many times you've been fooled  
up the nails with superior secrets  
you priceless metal flake  
but how can you believe  
that patience brings rewards  
Up the nails with trappings  
little games and smaller worlds
