These times useless inventions satisfy inquiring minds
What about a piece of intentions in production of new
schemes?

Realize a world of quick fix streams.
Come on purchase the new one
Be the first to strap it on
Lose antiquated fixations that you cannot leave about
For a nice try change this model out

Feed on a stroke of brilliance sometimes
To cover up the oldness in your eyes
You'll never see the coldness in our lives
Don't know if it's a miracle or a curse
Maybe we can help you to feel worse

These days useless inventions simplify or complicate
You've got the keys to the kingdom
That through which you could remove
That from small beginnings must have proved

Feed on a stroke of brilliance sometimes
To cover up the oldness in your eyes
You'll never see the coldness in our lives
Don't know if it's a miracle or a curse
Maybe it could help you to feel worse
Type of curiosity of your youth
Are you seeking doubt or seeking truth
Never knowing what will come up next
Will it be the panic will show us let (?)

Well it's too late to change your connection
Didn't even get through inspection
