Slash forward through all suffocate
Do you enjoy coming down with the hate?
Generation X lies in it's sleep
Innocent as angels next to generation Z

In dreamhouse I once was untraced
Visible in screamhouse a new practice space
The chill gets you losing again
Incidentally which pill will you be choosing again?

If you want some
If you need some
Just go talk to her

But we won't apologize for the human race

Inksmeared on the meat of my mind
Analyze and obviate disasters grand
Redemption to "get saved quick" kit
Safe to bet you'd sacrifice your children for it

If you want some
If you need some
Just go ask for her
But we won't apologize for the human race
We won't apologize for the humans
