Where do you think you are
Where do you think you are
Where do you think you are
Where do you think you are

Where do you think you are
How did you get this far
Where do you think you are

Stop fighting about the weather
When there's nothing you can do
Stop fighting about the weather

Stop fighting about the weather
When there's nothing you can do
Stop fighting about the weather

Stop fighting about the weather
Stop fighting about the weather
You can't hide away forever
You can't hide away your smile
You can't hide away forever
So come out, so come out, so come out

So come out
So come out
So come out
So come out

No, I can't explain it
No, I can't explain it
