Silence in the libraries
Not going to bring me down
Singing the voice that you started out with
Nothing's going to bring me down
Nothing's going to bring me down
Nothing's going to bring me down
Nothing's going to bring me down today

Believe me
Nothing's going to bring me down
Nothing's going to bring me down
So what if I need it anyway

Home
Home is a bucket
Try
To sell on something
Heart
You make me
Cry loud little tears
And try to be the best man that I can

Nothing's going to bring me down
Nothing's going to bring me down
Nothing's going to bring me down
Nothing's going to bring me down today, tomorrow,
anyways, anyway
Nothing's going to bring me down
Nothing's going to bring me down
Nothing's going to bring me down
I couldn't get any lower anyway

Nothing's going to bring me down
Nothing's going to bring me down
Nothing's going to bring me down
Nothing's going to bring me down
Nothing's going to bring me down, down, down, down,
down, down, down
