This is where we fall from the trees  
This is where the sky comes up  
[Incomprehensible] joy  
You made a man out of me

This is where the glass leaves the lens  
Splinterin' a chemistry of friends  
I'll treasure you always

You know, I love you  
You know, I love you  
You know, I love you

This is where we wake in the ditch  
This is where our bodies sing no more  
For the apples on the floor  
Pecked down by Redwings

Pour another whiskey out for me  
It'll be the last bottle we share  
Because I drift outta nowhere

Know that I loved you  
Know that I loved you  
Know that I loved you

But love was not enough to hold my grip  
Can't you just feel my fingers slip  
Into those oceans and the sky where people swim

Ocean and the sky callin' me in  
Oceans and the sky, I tell myself  
No, I'm not kiddin' anybody else

They know I'm leavin', yes, they know I'm leavin'  
They know, they know they know  
Know that I'm leaving, leavin', leavin'  
They know that I'm leaving, yes, I know

So I'm leaving my best friend  
Just for the hell of it  
Just for the sake of it

How much I loved you
