"Welcome To Dying"

Hey, get in line, cause time is now, for us to rob you
blind
Suck it in, the shit we sell's like opiate, FOR THE
MASSES
So chew it up, like the idiot that you're just supposed to
be
Bigotry, the clay that shapes society

No, let's nuke 'em all to hell
Death, destruction & pain
Fear, the only thing that sells
Headlines - the only way

Welcome to dying, the only way

You parasites, our masterplan to keep you on a leash
Ignorance, let's milk our their minds from autonomy,
NO EXCEPTIONS
You're saying what! ? That we invade on people's civil
rights! ?
A bunch of lies, we just secure our economy!

[Lead 1: Fredrik]

Oh friend, don't turn into our enemy
We'll dig your grave and throw you down
No, don't question our monopoly
Or why the bloody bills keep rolling in

[Lead 2: Daniel]
