You are killing yourselves, only wasting away  
Better who you know than who you are  
The time that you spend, on the gods you create  
Oblivious to nothing but your part

[Lead: Daniel]

Welcome my friends, to the world that you made  
Marching like you dream, just down the drain  
You are rather in line, like the fools on parade  
Hope you're lucky on you planet hate

All this agony, my insanity  
You are what is wrong with me  
What humanity, only vanity  
You are my insanity

So a cynic I am, not playing the game  
Indifferent is all I'll ever be  
Tell my friend, Mr. Rat in a cage  
Who really is the one who's on a leash?
