Get up and all is chaos, I should have stayed in bed  
Another bloody Monday's here, a full week o playing  
dead  
Hey you, a name & number? Headcount is on the way  
Report in to assembly line, you're stuck till your dying  
day

Consume, produce you loser, who cares if no one'd use  
it  
No hope, dead machines alive  
No one is necessary, you' all secondary now

In skeleton city, in skeleton city  
Just another day, in skeleton city

Come here, I've got your money, and money it makes  
me king  
Crawl on your knees and take the whip, to me you're  
not a thing  
Hey son, you best obey me, this bullet is just for you  
I keep it in my wad of cash  
So do what I say, you fool!

[Lead: Daniel]

In skeleton city, in skeleton city  
Just another day, in skeleton city  
Skeleton city  
Downhill all the way, in skeleton city
