Hey, Little girl, you're growing up too soon.
You should be back in school this afternoon.
I've seen your Daddy, Daddy's awful mad.
He says you've let him down, bad, you're so bad.
Hey, Little girl, you're growing up so fast.
Now your innocent days have past...

This world is gonna say goodbye to the girl.
Welcome to reality. Welcome to the world.

It's so sad, it's such a shame...
Yea, things will never, ever, ever be the same.
It's so sad, you're not to blame...
It's so sad.

Hey, Little girl, whatcha gonna do?
Seems like the world is picking on you.
Where ya gonna live? Where ya gonna go?
Somewhere where the hurting is never gonna show.
Hey, Little girl, you're growing up so fast.
Now your innocent days are past...

This world is gonna say goodbye to the girl.

Welcome to reality. Welcome to the world.

It's so sad, it's such a shame.
Yea, things will never, ever, ever be the same.
It's so sad, you're not to blame.
It's so sad.

Hey, Little girl, you're growing up so soon.
You should be back in school this afternoon.
Hey, Little girl, you're growing up so fast.
Now your innocent days have past.

It's so sad, it's such a shame.
Yea, things will never, ever, ever be the same.
It's so sad, you're not to blame.
It's so sad.
