"Amazing Life"

Visit "[Amazing Life](#)" on MotoLyrics.com

It's a beau-beau-beautiful world we've been given
From the top of the sky to the ocean
I'll never understand it all (understand it all)
It must be supernatural

It's a ma-ma-magical a starry night
Feel, feel so small under a billion lights
I'll never understand it all (Never understand it all)
It must be supernatural

Amazing life [x2]
Flying higher than I've ever dreamed
From the top of the world I could scream
Amazing life [x2]

It's a colorful, colorful world painted so bright
Gonna walk on air, gonna take flight
I'll never understand it all (Never understand it all)
It must be supernatural

I wanna drink, drink, drink every drop of sunshine
Got a smile on my face, I won't apologize
I'll never understand it all (Never understand it all)
It must be supernatural

Amazing life [x2]
Flying higher than I've ever dreamed
From the top of the world I could scream
Amazing life [x2]

You are the burning in my heart that never dies, never dies
Without You here my world is black and white
Like a show without a stage
Like a storm without the rain
You are the one I can't replace
Need You by my side
Need You by my side

You're the reason for this amazing... [x2]

Amazing life [x6]
Flying higher than I've ever dreamed
From the top of the world I could scream
Amazing life [x4]
