This is your gummy instructor
Its a great summer, never ending summer
Dont want to be alone this time again this time
Here we are standing side by side like a super star

Its a great summer, never ending summer
Dont want to be alone this time again this time

Here we are standing side by side like a super star

Its a great summer, never ending summer
Dont want to be alone this time again this time
Here we are standing side by side like a super star

Its a great summer
