We are the chosen few  
We're comin' down on you  
We'll leave you crashed&burned; behind  
We're on a vengeance trip  
We haven't lost our grip  
A ride that devastates your mind

Yeah alright  
Raging fury wild beast  
Oh alright  
Open fire nail you down & reload

An airborne force untamed  
We spit unholy flames  
Another victory to our name  
We're here to stake our claim  
Though faces may have changed  
You know the spirit stays the same

Yeah alright  
Raging fury wild beast on the road  
Oh alright  
Bulding pressure 'till your skull will  
Explode

We're the stallions of the heavens  
We're the rules of the night  
Our reign shall last forever  
Even gods don't dare to fight

Brace for impact  
At 16000 feet  
That's where we finally meet  
It's meant to be my fist your face  
We're rotten to the core  
We're here to let it roar  
Driven by anger fueled by hate

Yeah alright  
Lightning charged the thunder will roll  
Oh alright

It's do or die electrifying your soul
