Leaving burned  
Leaving burned roads behind  
I'm no more  
No more slave to the grind  
I never thought  
Never though there'd be the day  
When I regain my faith  
And I'm back on my trail

The animal inside me  
Rears it's head to break free  
Gotta let loose  
Raise some hell let it bleed

Went to the boss  
Went to the boss and said I'm done  
Punched his face  
TKO and I was gone  
When he came round  
When he came round he knew  
Stand up for your rights  
Is what we all got to do  
The animal inside  
Rears it's head to break free  
Gotta let loose  
Raise some hell let it bleed

C'mon c'mon  
Let's start a riot again  
C'mon c'mon  
Let's start a riot once again
