I wait on the stairs  
For a break in my mind  
Let the balloons go outside  
Let the balloons go outside

I wait on the stairs  
For my thoughts to align  
You are the sun in my mind  
You are the sun in my mind

Clouds rock like a ship at sea  
Sooth the waves of injury  
Clouds rock like a ship at sea  
Sooth the waves of injury

I wait on the stairs  
There's a view in my mind  
Objects of love in the sky  
Objects of love in the sky

I wait on the stairs  
For my thoughts to be kind  
What better view will I find  
What better view will I find

Inflated with transparency  
Float away my injury  
Inflated with transparency  
Float away my injury

Let the balloons go outside  
Let the balloons go outside

I wait on the stairs  
For a break in my mind  
Let the balloons go outside  
Let the balloons go outside

Let the balloons go outside
