Like fire tonight  
You light up the sky  
You are the power, you heat up my heart  
Desire tonight  
Our love make us fly  
We are like fire tonight

Oh yeah

You are my sunshine  
My light bright in day  
Incredible passion to show me the way  
My body's on fire it's burning so hot  
Every day, every night  
I hold you tight  
Every day, every night  
I hold you tight

Life, this is your time  
The party is out there and waiting for you  
Oh life, come out and dance  
You are the one so come take your chance

Like fire tonight  
You light up the sky  
You are the power, you heat up my heart  
Desire tonight  
Our love make us fly  
We are like fire tonight

When we're together  
I'm feeling so strong  
Enormous emotion, yeah, all night long  
I'm here to please you, I am your man  
Every day, every night  
I hold you tight

Life, this is your time  
The party is out there and waiting for you  
Oh life, come out and dance  
You are the one so come take your chance

Like fire tonight  
You light up the sky  
You are the power, you heat up my heart  
Desire tonight  
Our love make us fly  
We are like fire tonight

Like fire tonight  
You light up the sky  
You are the power, you heat up my heart  
Desire tonight  
Our love make us fly  
We are like fire tonight

You are the power, you heat up my heart  
Desire tonight  
Our love make us fly  
We are like fire  
We are like fire  
We are like fire tonight
