

Gurd "Always"

Visit "[Always](#)" on MotoLyrics.com

I want it - what you hide from me
I call it - so come on set it free
Driven by anger - my only motivation
Never surrender - the way it always had to be

It had to be

Come closer - let me taste your fear
Kinda cosmic - what is happening here
Driven by anger - the hate inside of me
Better suspended - the way it always had to be

Always
It had to be
Always
The way it had to be

Come a little closer
Come a little closer now
Let me taste your fear...

I want it - what you hide from me
I call it - so come on set it free
Driven by anger - my only motivation
Never surrender - the way it always had to be

Always
It had to be
Always
The way it had to be
