You said you help me  
When I ask for it  
You've tried to break me  
I fight back instead  
When will you leave me  
When will you set me free  
You can believe me  
I just fixed my head

I will not live - I will not die  
My life's just wasted  
You cannot help - you cannot heal  
So why you're waiting  
You're way too late - you've gone too far  
No pills will treat me  
Escape from here - is all I want  
You cannot break me

I feel the flame  
Burning in my head  
I'm not insane  
And soon I'll be dead

My loony inmates  
Oh I feel for you  
Can't understand it  
Why they feel so blue  
Don't wanna stay here  
Got to get away  
You won't believe me  
I am not insane

I will not live - I will not die  
My life's just wasted  
Escape from here - is all I want
