"Terminate"

You can't, you can't, you cannot get away
No matter what your people say
You won't, you won't, you will not get away
It does not matter to whom you pray
I take your life, take your life
Terminate, terminate, terminate, terminate
Meet your fate, meet your fate

I will, I will not let you go
I'm searching, hunting high and low
No place, no place, no place for you to hide...

I take your life, stare in your eyes
Terminate, terminate, terminate, terminate

Meet your fate, meet your fate

You can't, you can't, you cannot get away
No matter what your people say
You won't, you won't, you will not get away
It does not matter to whom you pray
I take your life, take your life
Terminate, terminate, terminate, terminate
Meet your fate, meet your fate

Terminate, terminate, terminate, terminate
Meet your fate, meet your fate.
