I play guitar
I should be the star star star star
but you just love the bass player
id rather be a bass player
I play the keyboards
I get so bored bored bored
I wish I was a bass player

id rather be a bass player.
Id rather be a bass player
id rather be a bass player
but you just love the bass player.

I play electric
it makes me really thick thick thick
that you just love the bass player
id rather be a bass player

I play the drums
so people think im dumb
and you just love the bass player
id rather be a bass player

Id rather be a bass player
id rather be a bass player
but you just love the bass player.
We just love the bass player.
So if you're out there
You should grow your hair hair hair
and shake it like a bass player
I hate the fucking bass player
he used to lay bricks,
he got sick of digging trenches,
it was bad for his fingers.
We just love the bass player
we jus love the bass player.
