How you gonna know  
Where you gonna go  
When the sun goes down and  
You find yourself alone  
Alone

Don't go tellin' the whole world  
How you ache  
For a sun so bright at night  
Don't go tellin' the whole world  
How you break  
It's a cold autumn night

When the sky is torn  
Tomorrow still unborn in your mother's eyes  
You find yourself alone  
Alone

Don't go tellin' the whole world  
How you ache  
For a sun so bright at night  
Don't go tellin' the whole world  
How you break  
It's a cold autumn night  
Don't go tellin' the whole world  
No no, no, no  
Don't go tellin' the whole world

Just let go, let go, let go, let it go  
Just let go, let go, let go, let it go
