You've got to find yourself a place to stay anyway  
'Cause I ain't stayin' 'round, around anymore, no way  
Now you'd better leave 'cause I'm, I'm gonna find  
Myself another

Take that gun blow your mind  
Take that gun go ahead and make my day

You got to find another piece of wax anyway  
'Cause I think it's over now, it, it melted down  
Just the other day

Take that gun blow your mind  
Take that gun go ahead and make my day  
Take that gun blow your mind  
Take that gun
