And you walked out when I asked you to stay
As usual you will get your way
You closed the door and stumbled down to the street
Where you wring your hands
And you drag your feet there
Where the words can't find you
To crawl inside you
I'm ringing all the warning bells
Careful or you'll hurt yourself
Others lie, lie, lie, they adore you
I'll be the one to tell you
Careful or you'll hurt yourself
Gonna try, try, try till the morning
But you can't hide standing under these stars
They know everything, they know where you are
You're in your head, you're all turned around with it
And they're shining down their light to bring you back
again

Back where I can find you
To crawl inside you
I'm ringing all the warning bells
Careful or you'll hurt yourself
Others lie, lie, lie, they adore you
I'll be the one to tell you
Careful or you'll hurt yourself
Gonna try, try, try till the morning
All you want to see is make believe
It's nothing but way down underneath
I'm ringing all the warning bells
Careful you don't hurt yourself
Others lie, lie, lie, they adore you
I'll be the one to tell you
Careful or you'll hurt yourself
Gonna try, try, try till the morning
