Well it's true he was so young  
But you are here  
And the moment clouds your brain

You could have even saved him  
That means nothing  
You could have even been there, it's a lie

How can you blame him for your life?  
It's a mental suicide  
And it carries you away, yeah

Ohh, dissolve your fears into one, ohh  
(Try to figure out)  
(Dissolve will find a way)

And it's true, we aren't immune  
There's a way  
And denial crowds your brain

To try and understand him  
That means nothing  
To try and find the meaning, it's a lie

How can you blame him for your life?  
It's a mental suicide  
And it carries you away, yeah

Ohh, dissolve your fears into one, ohh  
(Try to figure out)  
(Dissolve will find a way)

To right or wrong  
To understand  
To figure out  
It's in his plans

To leave alone  
To find a way  
To figure out  
It's not your fault

And it's the both of you, he's ruined  
He's torn away  
All the desire born inside

You could have even saved him  
That means nothing  
You could have even been there, it's a lie

To try and understand him  
That means nothing  
To try and find the meaning, it's a lie

Ohh, dissolve your fears into one, ohh  
(Try to figure out)  
(Dissolve will find a way)

To leave alone  
To find a way  
To figure out  
It's not your fault  
You see yourself  
Mother would be proud of you

To leave alone  
To find a way  
To figure out  
It's not your fault  
You see yourself  
Mother would be proud of, proud of, proud of you  
anymore
