Please come tempt me you've got something good in
mind

Dropped everything glad to be persuade this time

Into the car baby bleed the gas

Fast is fast never turning back

Oh yeah not scared of that

The past has passed and we cannot take it back

They want to know if we could get away

Yeah we backed it up and made our great escape

When the dust will settle and they discover

The furthest exodus getting somewhere

While the messengers get the message in

Try to capture us we've done nothing wrong

Please come tempt me steal me from this priss-teen
life

Oh so gently everyone feels pain this time

Into the car baby bleed the gas

Fast is fast never turning back

Oh yeah not scared of that

The past has passed and we cannot take it back

They want to know if we could get away

Yeah we backed it up and made our great escape

When the dust will settle and they discover

The furthest exodus getting somewhere

While the messengers get the message in

Try to capture us we've done nothing wrong

Oh she wants me

And she needs me

She can have me all of the time

Oh she wants me

And she needs me

Circle circle dot dot dot

They want to know if we could get away

Yeah we backed it up and made our great escape

When the dust will settle and they discover

The furthest exodus getting somewhere

While the messengers get the message in

Try to capture us we've done nothing wrong
