

## Guster "OK Alright"

Oh, no here we go  
We're the last ones alive  
Every family and every friend  
Has been strangled and tangled tonight  
All the world is abandoned and I  
Got what we need and we don't look back

OK alright, OK  
OK alright, OK

So now take control  
Pick a car we can drive  
Every dream we have ever held  
No more strangers or dangers  
Tonight  
All the world is a canvas tonight  
Got what we need and we don't look back

OK alright, OK  
OK alright, OK

And that's the way it goes  
Skin the vapor and flesh to goes  
It's the first day of our lives  
Tear their names from the cages  
My oh my my  
Everyone is a virgin and I  
Got what we need and we don't look back  
Another chance  
Yeah we get another chance

OK alright, OK  
OK alright, OK
