I'm lying in my bed my mother by side of me  
She'd dead and motionless just staring at me  
Dead for six months and even she loves me  
Guiding me through the hard times  
The smell in my house is unbearable  
My mother's body is half eaten by worms  
Rancing through my mind a strange illusion  
I wish she comes a little closer now  
Smell of her rotting body makes me insane  
I want to fuck her this mournful day  
Her severed body takes my pain away  
Her legs spread open then I stuck my cock  
Rotting pus on my standing,, bloody cock  
I feel the paradise when I milk off
