Every time i look at your face
It makes me want to taste it
Makes me want to taste it
Every time i look at your face, it makes me want to
Rip my heart right out of me
Shove me back in line
I'll groom you so lovingly - i'm yours
Your worth your weight in gold
The gorgeous ring in your nose
We can take in a show
Or a rodeo o-o-o
Every time i look at your face
It makes me want to taste it
Makes me want to taste it
Every time i look at your face, it makes me want to
What we've got is very rare
You look so delicious
I'll make you your favorite meal - hey!
Your worth your weight in gold
The gorgeous ring in your nose
We can take in a show
Or rodeo o-o-o
Every time i look in your face
I see a thousand steaks
A thousand plates of steaks -yeh!
When the people want to buy
And the market's high
Just kiss your ass goodbye
You can kiss your ass goodbye (x3)
I can't explain our bond
Life without you will be so hard
Who's gonna plow my field
I loved you and you're a veal
