We run with the night
We enforce in the night
Everybody knows we enforce in the night
Everybody knows we run with the night
Black enforcers
We enforce by the night
If you don't know the handshake
Got got got no pity on you
9 times against the wall
Raise your palm and swipe
Black enforcers
Everybody knows it's 9 times
We enforce with artillery force
We will know that you don't know the handshake
Black enforcer everybody knows jay santos
We enforce the enforcer's way
We will know that you don't know the enforcer's way
