I started drinking at a quarter to 4
Half past eight I'm out on the floor
I saw her walking right in I said
Keep on goin man I don't give in
Next thing you know I'm back
I gotta make my move, precious attack because
I gotta thrill from the hurt and kill you know
Mommy said don't take that pill, well
Mommy said life ain't all thrills and
Mommy said don't play with fire
Guess what mommy, I like that fire!
I chat her up and drink some more
12:15, my mind's a blur but
Beauty and beast have made a connection
I got the fever and I need her injection
Come last call, we gotta go
Back at her place, I don't know then
I knock the candle over, start a fire
She lost it all I called it fate
I guess there won't be a second date - damn!
I guess there won't be (3X)
Burnin up (2X)
I never caught her name
Burnin up (2X)
Disfigured now she's mamed
Burnin up (2X)
I hope that she forgets me
Burnin up (2X)
Don't want to say I'm sorry
Burnin up (2X)
Messed up our little party
What you gonna do? (2x)
Burnin up (10X)
I never caught her name
Burnin up (2X)
Disfigured now she's mamed
Burnin up
Burnin up
I hope that she forgets me
