Give me a gun cause cause bombs and guns are really  
fun

I've lost my job my moneys gone live like a slob

I've got no home only streets to roam live so alone

I'm barely alive I feed on cats to survive

My wife left me my kids are dead

All this guilt is in my head

I can't go on living like this

I wish that I was dead I wish

Give me a gun I'll kill a nun just wait and see

Give me a gun I'll shoot a cop to be on TV

Nothing could be more fun than a shooting spree

Once again I found myself back on TV

Guns are fun so much fun neato fun, fun, fun

Better run I got a gun

Come on down and join the fun
