Listen to me it's a 100 degrees  
And still you've got your leather jacket on  
To be in vogue who cares if the heat is on  
I know it sure looks nice  
Take over from inside  
But you're on the outside  
Join the rank you are fighting you will see  
You think your cause is valid  
Like sugar and some spikes  
45 minutes just a puttin up your hawk  
Oh boy does it look good and boy do you look smart  
But what's the fucking point  
You can sing about change  
Cops have control oink, oink, oink
