Most girls I know are so lame

Red hot bods

They're all the same

Nothing in between the ears

Just lots of space

Six cans of beer to fuck

See you later

Thanks again

Maybe we can just be friends

All that space inside your head

Makes me want to go to bed and fuck

The love I have for her is real

\$2.99 the six pack deal

See her with another guy

It makes me laugh

She thinks I cried

Girls in bars they make me sick

But I don't care if they suck my dick

Spend six bucks on dollar night

A prostitute for just one night to fuck
