Most girls I know are so lame  
Red hot bods, they're all the same  
Nothing in between the ears  
Just lots of space - six cans of beer  
To fuck  
The love I have for her is real  
\$2.99 the six pack deal  
See her with another guy  
It makes me laugh, she thinks I cried  
She's just a fuck  
See ya later, thanx again  
Maybe we should just be friends  
All that space inside your head  
It makes me want to go to bed  
To fuck  
Girls in bars they make me sick  
But I don't care if they suck my dick  
Spend six bucks on dollar night  
A prostitute for just one night  
She's just a fuck
