Sound a little tongue tied  
Better swallow your pride  
'cause you can't find a ride  
When you drink like a fish  
Maybe you should not drive  
Ill toot my horn as you pick up trash on the round a bout  
For the next six months  
With your ass spread wide

Well you got no class  
Speed up to pass as your face hits the glass  
Two burned out cars on the five overpass

You will see your girl through the jail Plexiglas  
Drunk punk mini smart ass  
Ill wave to you  
As your bus drives passed

(chorus)  
And now amandas calling time to hitch a ride  
Lights flashing in me mirror  
Its me second dui

(guitar)

(repeat chorus)

Left your parents nest  
From the old midwest  
You were second best  
Put yourself to the test

Ty and five friends had enough of the old incest  
And when he hear this im sure he will protest  
That little pest and he shaves his chest

(repeat chorus)
