(at the dinner table)

Welcome everybody to my table  
Don't be shy, man, grab a seat  
Cmon, it's time to eat, dig in

Frejoles de t.j., sushi from japan  
Weenies from america  
Don't forget canned ham  
Monkey brains from india  
? ? ? ? from france  
Pizzas from chicago  
Korea, dog, many cat

All we want is, all we need is  
All we want is, all we need is  
All we want is one more beer  
To teach the world  
To sing in harmony

Eating can resolve  
This racial tension  
Get yourself a side of beef  
Electric knife, and 50 of cord

Flies from ethiopia  
Sangria de espana  
Crumpets from england  
Sand from iran  
Bratwurst von deutschland  
Meatballs from sweden  
Mongolian bbq  
Bacon from canada, eh...

The next time you're about to shout a racial slur, stop,  
and think about  
All the wonderful dishes that come from his or her  
country, and channel  
Your energies into enjoying your next international  
delight!
