[Chorus:] One look at you is so contagious
One kiss and mononucleosis
Like a pit bull bite or staring at the sun
One look is all it took to notice
One kiss and you have left me joyless
Like a fugitive or love with no passion
Was this a test
A test to reinforce I was obsessed
A test to see how much I would digest
A consciousness mind rape
But then you go and beat me like the rest

[Chorus]
I wonder why
You'd taken all my money
Then you'd lie
And when there was no more I pacify
You're every need and whim
But then you go and bleed me til I'm dry
I wonder why
You'd taken all my money
Then you'd lie
And when there was no more I pacify
You're every need and whim
But then you go and bleed me til I'm dry
[Chorus]
