

Guttermouth "Gold"

Visit "[Gold](#)" on MotoLyrics.com

I think I've been infected with the flu
Once again bordems got me feeling blue
Sometimes in this live you've got to cut the crap
Sit down for my rights 'cause I don't care
to do what everybody else would do. I'm fine right here
I voted once but I didn't win, ill never vote again
People say I should give a damn
People say I should respect this land
But I say no way I wont compromise
Either way my life remains the same
Its great, come join me at the lake its freshly stocked
No work just play leeching of the state all day
clears my mind
They say this is the land of the free
To me that means I have the liberty to sit down for
my rights 'cause I don't care

To do what everybody else would do I'm fine right here
I voted once but I didn't win Ill never vote again
god bless America the home of the whopper
god bless America billions billions served
every week from Moscow
to Madagascar, Ronald McDonalds smile warms
the hearts of all people regardless of race,
color, creed, sex and social status
By opening 3 new McDonalds restaurants as ambas-
sador of my country, America. Ronald personally
invites you to join him on his quest to end world
hunger enjoy!
