Seventeen and hopeless and I don't care  
just want to get laid and drink some beer  
no responsibility, nothin to do  
I can do anything I put my mind to  
born in this world  
die in this world  
life goes on  
now I'm twenty three my future's in sight  
got a steady boring job my future don't look too bright  
try to fight the system but I keep to myself

I take my mind out at night and I put it on the shelf  
now I'm thirty four it's a bore  
smashed my nuts in the kitchen door  
do you want to tell me tell me now  
just hoe life is such a cow
