Most girls I know are so lame
red hot bods, they're all the same
nothing in between the ears
just lots of space - six cans of beer
to fuck
the love I have for her is real
\$2.99 the six pack deal
see her with another guy
it makes me laugh, she thinks I cried
she's just a fuck
see ya later, thanx again
maybe we should just be friends

all that space inside your head
it makes me want to go to bed
to fuck
Girls in bars they make me sick
but I don't care if they suck my dick
spend six bucks on dollar night
a prostitute for just one night
she's just a fuck
