don't tell me that there is nothing wrong
it's right in front of you.
if you just open your eyes
you'll find necessity to change you don't have to be
afraid but...

running and hiding won't help to find your way
sooner or later has got to be today
don't let your fear dictate what's wrong or right
you pissed me off
what's got into you
give me a sign, tell me everything is fine
you'll find out who you want to be, then finally you can
see that...

running and hiding won't help to find your way
sooner or later has got to be today
don't let your fear dictate what's wrong or right
