Lawdy mercy land of goshen shades of gray out on the
ocean
Don't you dare take that boat out to sea
For the high seas are runnin' you will sure enough be
done in
If you dare take that boat out to sea

Cause out there in the gulf the wind is blowin' like a
bandit
And I'm talkin' bout a hurricane and your riggin' will not
stand it
There's an I'll wind a blowin' you better get back to your
moorin'
Don't you dare take that boat out to sea
You better take a weather warnin' you'll be shark bait in
the mornin'
If you dare take that boat out to sea
[guitar - fiddle]
You better give up on that shrimpin' you just might
come home a limp in'
If you dare take that boat out to sea
You better not make one more drag you're gonna wind
up in a bag
If you dare take that boat out to sea

Cause out there in the gulf the wind is blowin' like a
bandit
And I'm talkin' bout a hurricane and your riggin' will not
stand it
Lawdy mercy land of goshen shades of gray out on the
ocean
Don't you dare take that boat out to sea
For the high seas are runnin' you will sure enough be
done in
If you dare take that boat out to sea
