Forever ain't easy to come by  
For always ain't never to sure  
For certain is less than you hoped for  
For someone it's hard to endure  
Forsaken must sometimes befall us  
For sorrow sometimes will call  
Four seasons go around on a pinwheel  
And tomorrow ain't nothin' at all

The first time that I came by lovin'  
Forever was all on my mind  
And I never got used to the hurting  
Or the searchin' for some love in kind  
And it seems like I'm still chasing rainbows  
It seems like I'm still on the run  
Forever don't mean much in passing

Forgotten don't mean that it's done

Forever, for always, for certain'  
For someone forsaken for sure  
For any old plan you got workin'  
For any old pain you can cure  
Forever, for always, for certain
