Hey Oh  
Hypnotised by your signs  
You're the kinda girl  
Wanna make you mine  
Your love's so fine, baby  
Won't you please rescue me  
Everything you do makes me wanna sing  
I 4 u and u 4 me, babe

I really knew  
Thinkin, oh what do I do  
Coz you got my head spinnin round in circles  
Is it worth hangin around (oh no)  
Thinkin I've found a girl that I think maybe I'd marry

Why has this feeling takin over  
I'm finding it so hard to breathe, oh please  
Girl I think I've found we've gotta start movin

When you let me show ya (ooh)  
A vision for too lovely  
To be kind so fine  
Girl I think we better start dancing  
It's getting right in front of that (ooh)  
I never thought a part of me could compare (could  
compare)  
Maybe me and you could get married

Why has this feeling takin over

I'm finding it so hard to breathe, oh please  
I think maybe we better start moving

Wanna make you mine

Won't you please dance with me  
Everything you do makes me wanna sing  
I 4 u and u 4 me, baby (yeah)

Girl I can't take this state of mind  
I feel like I can fly  
Now I realise  
Now I will leave you alone  
So let's go baby (oh, hey)

Why do I feel like this?  
I can't explain the bliss of this  
Oh girl, I think we better start movin'  
Why do I feel like this  
I can't explain the bliss
