Penile drip, you gotta love it
When the blisters spread all over your hands
The penile drip, you gotta love it
When the blisters come up all over your hands

Penile drip, you gotta love
When you spread it all over the land
The penile drip, you know gotta love it
When the blisters come all over your hands

I said the penile drip
(Bunch of unintelligible bullshit)
Spread it all over the land
Spread it all over your glands

Big chunky Charlie's got a red rubber ball
And he spreads it all over the land
Penile drip, gotta love it
Blisters spread all over your hands

I said your mission in life, your mission is a failure
And you're pissing all over the can
I said, the pita, the pita, the pita
And the lovey-dovey Lucifer man

Can an ocean of tears fill the depth of the wound?
Nay, the chaotic basilisk said
"Spread it all over the land
Spread it all over your hands"

Big chunky Charlie's got a red rubber ball
And he spreads it all over the land
Spread it all over the land
Spread it all over your hands

Big chunky Charlie's got a red rubber ball
And he spreads it all over the land
