"Stalin's Organ"

They were called Katusyhas, but we called them
Stalin's Organs
200 MM devastating fire
When streets hiss, and falling block, kisses desperate
flesh
Stukas plunging, as skylines reform
Spreading madness, in the gun factory
Which had become something of a rallying point in the
last few days
I can tell they fear us, by the way they fire
We infiltrate, we wade through hip-deep filth
And then we come at them from below
Now that your name has been changed, will any
remember your name?
And why was I, so led away?
And what secret laid?
In the blood soaked block
On the fountain made...
Return, return, return
