[Aceyalone-Talking]

Yeah! One-two..one-two

Where you at? Where you going to?

Is you going do about it? Is you going be about it?

Project Blowed! Abstract, Fat Jack, Ace-One

Ladies and gentleman, good people

Yeah, good brothers and sisters on deck

Yeah, check me out

[Aceyalone]

Dig this, peep the twist

Hand over fist, hand stand on a cliff

Land stiff expand on the gift

Uplift the masses and pass, we the splif

It's love thang, it's a hate thang[Love], it's a great

thang [And hate]

Cali to the state of Maine, it's a world thang

And I'ma soldier, always a war going on it's never over

[We going have war!]

I make music, for the people, and try to live a good life

and keep it peaceful

And be resourceful and keep achieving every season

we represent the reason

I'm from the Fellowship, I'm from the Project, I tell them

all access is the object

It's so beautiful, it's so painful, I do the work and don't

forget what I came for

[Abstract Rude-Chorus]{Aceyalone}

The saga, continues {Yeah!}

On the road again, the different venues {One-two!}

Who blessed you, was kept true {One-two!}

?, cause we got that soul {Where you at?}

The lonely, the only, {Where you going to?}

MC's of the Project Blowed {What chu going do
about?}

{Is you going be about it?} MC's of the Project
Blowed...{Project Blow!}

[Abstract Rude]

I'm scorpion and don't speak with fortune

I'm your son of light force and dwarfins
From the diaphragm abdomen and rude
With Ace the voice box, top choice rockers

[Aceyalone]

Aceyalone's my name and Abstract is here

[Aceyalone and Abstract Rude]

He's Fat Jack it's like that and that's the way it is!

[Abstract Rude]

From old school[Old school] to new school [New
school] ?

So get used to

Cause I ain't new to the block don't be coppin attitude

You can't have everyone glad, some are going be mad
at you

The gossip is heard the Mercury is arising

A profit is earned ghetto enterprising

A moment of truth is hidden in silence

A couplrits crew and nobody smilin

My rubber is going burn more knowledge on the road

That's when you going learn more knowledge on the
home

[Abstract Rude-Chorus]{Aceyalone}

The saga, continues {Yeah!}

On the road again, the different venues {One-two!}

Who blessed you, was kept true {One-two!}

?, cause we got that soul{Where you at?}

The lonely, the only, {Where you going to?}

MC's of the Project Blowed {What chu going do
about?}

{Is you going be about it?} MC's of the Project Blowed...

{Project Blowed!}

[Aceyalone]

Like I was once told something by a wise dude

Keep your eyes on the price by you

So when you slide through you gotta meaning

So here's something you could ride to the scene and

Indepentent, rap label, round table, square business

I got a passport and a Visa, an American dream I want
a piece of

I'm a MC, I'm a poet, I do smoking ?, I like smoking

Herb

In all of the day, and all in the night, we all in the fight

So don't be trippin on me

[Abstract Rude-Chorus]{Aceyalone}

The saga, continues {Yeah!}

On the road again, the different venues {One-two!}
Who blessed you, was kept true {One-two!}

[YO!] [*Echoes*]

[Abstract Rude]

Everything in me is a ?
The new and improve, the smooth and rough
The rude and nice, don't ruin your life, with a hooligan
type
Checkin my Yin and Yang mood
I'm feeling your pain child
My soul sings the songs of James Brown
No jigga boom ? show rather classic and a inventive
flow
That'll enlight and wake up to take note
Is it right to have faith and keep hope?
That each quote bless you, finish you
It's kept true, music is my sweet nepwhew

[Abstract Rude-Chorus]

The saga, continues
On the road again, the different venues
Who blessed you, was kept true
?, cause we got that soul [Yo]
The lonely, the only
MC's of the Project Blowed
MC's of the Project Blowed...
