Visit "[Brand New Days](#)" on [MotoLyrics.com](https://MotoLyrics.com)

At the end of the day you are worn and too tired to  
sleep  
But then you do dream of wonderful things  
That you might do, right on through to the next day

And then you wake up  
The sun's on your face  
You're stretchin' while you're sayin'  
It's a brand new day

It's a brand new day and the sky is clear  
So let's come together, everybody cheer  
Come out people from everywhere  
Let's see your faces, the day we'll share  
Celebrate a brand new day everyday!

Call out to the workers and the children in the schools  
It's a day of celebration so put down your tools and  
Celebrate a brand new day everyday

Come see the mountains and come see the shores  
Mother nature is calling so come climb aboard to  
Celebrate a brand new day everyday

At the end of the day there is no doubt you are worn  
out  
But then you do dream of wonderful things  
That you might do the next day

And then you wake up  
The sun's on your face  
You're stretchin' while you're saying'  
It's a brand new day

Celebrate a brand new day, everyday
