Some chickens crossed the road, straying far from the  
hen  
Five reached the side one step below zen  
One was a female, four were mad men  
Who moved on, moved on, moved on  
Joined hands and moved on

Standin' in line and falling asleep  
Building a fence while we're counting the sheep  
We'd let you help out but our projects are too deep  
Move on, move on, move on  
Stay away just move on

You have to understand that when it comes to making  
music  
We meshed the styles of five alive and intertwined and  
fused it  
Life comes from life and through our strife we  
Strove to make the sound true  
Compelled to spell it out, in search of what we must do

Our house was too small so we had to move  
The neighbors had much doubts so we had to prove  
That our soulful dimensions were true to the groove  
We, moved on, moved on, moved on  
To our house in the middle of the street

Water the music, plant the seeds in the pot  
Music is life flowing through is it not?  
Don't forget your roots, but also don't rot  
Move on, move on, move on  
Let the seeds and move on

You have to understand that when it comes to making  
music  
We meshed the styles of five alive and intertwined and  
fused it  
Life comes from life and through our strife we  
Strove to make the sound true  
Compelled to spell it out, in search of what we must do

And don't be afraid, let your feelings show

Wear your heart on your sleeve  
And let yourself glow

And don't be afraid, let your feelings show  
Wear your heart on your sleeve  
Wear your heart on your sleeve  
And let yourself glow

And don't be afraid, let your feelings show  
Wear your heart on your sleeve  
And let yourself glow

Don't be afraid, don't be afraid
