Hoo ha  
Hoo ha  
Hoo ha

I can be evil I can be good but I don't know if I really  
should  
Be evil to those jealous MCs  
That want to try and immitate me  
Take you step into my land  
Come immitate me like a foolish man  
Enter your dreams like Freddy Kruger  
Rip out ya brains the dark intruder  
Hellraiser another dimension  
Terrorise ya soul  
Now that's my intention  
Vampire Count Dracula  
Bite your neck  
Hoo ha ha  
Hunt you down  
I come tear out your heart  
Werewolf I'm coming in dark  
Zombified now mummification  
You'll be if you mess with my patience

I can be evil I can be good but I don't know if I really  
should
